INDICTUS
The Land is No One's
Web series
2018

A web series composed by 7 episodes of 10 minutes each. 70 minutes to tell an unknown Sicily. A land of innovations, where the rocky mountains became castles for us to explore, the Madonie. The events are juxtaposed with short digressions called Indictus (literally, what is not told) that subvert the storyline and provide two different points of view: the classic tale narrated by the winners and the one of the defeated.
